RESEARCH REPORT: RR 5482
EFFECTIVE DATE: 09/01/2024
EXPIRATION DATE: 09/01/2025
Telephone: 800-321-4739

GENERAL APPROVAL – Renewal- This product consists of cross-linked polyethylene (PEX) tubing and engineered polymer and lead-free brass cold expansion type fittings for use in potable water systems.

DETAILS

PEX tubing comes in white, red, and blue colors. The tubes have been tested to ASTM F876, ASTM F877, NSF 14 and NSF 61. The fittings are engineered polymer and lead-free brass cold expansion type with PEX reinforcing rings in compliance with ASTM F1960. The tubes are approved for 3/8 to 3-inch nominal diameter, and the fittings are approved up to 3-inch nominal diameter.

The approval is subject to the following conditions:

1. This approval shall only apply to the provisions of the Plumbing Code.
2. This approval is not an authorization for use in fire protection systems. Separate approval or listing is required for PEX tubing to be installed in fire protection systems.
3. PEX tubes and fittings may be installed in cold and hot potable water systems.
4. These PEX tubes meet the ASTM F876 requirement for chlorine resistance and have a chlorine resistance classification code of 5. These PEX tubes may be installed in hot water systems with recirculation pumps.
5. PEX systems shall be sized using hydraulic calculations in accordance with Appendix A of the Los Angeles Plumbing Code and pipe sizing from the attached Table B. Hydraulic calculations shall be based on the actual inside diameter of the tubing and with a Hazen and

Uponor, Inc.
RE: PEX Tubing and Fittings

Williams coefficient of C=150. Calculations shall demonstrate that the water velocity in the tube does not exceed 10 ft/s for cold water distribution and 8 ft/s for hot water distribution systems. Systems requiring 1-1/2 inch or smaller supply may be designed according to the attached Table A.

- a. The flow velocities account for the increased velocity through fittings.
 - b. Maximum velocities through copper fittings in PEX tubing shall not exceed 8 ft/s in cold water and 5 ft/s in hot water.
6. Plans shall be submitted to Mechanical Plan Check and shall be approved prior to obtaining the plumbing permit.
- Exception:** Systems requiring 1 ½ inch or smaller supply and designed according to the attached Table A.
7. PEX systems are subject to the following pressure-temperature limitations:
- a. 160 psi @ 73°F (cold water systems)
 - b. 80 psi @ 140°F (hot chlorinated water systems)
8. When hot chlorinated water systems are subjected to water treatment to remove chlorine, the pressure-temperature limitation shall be:
- a. 100 psi @ 180°F (hot non-chlorinated water systems)
9. PEX tubing shall not be installed where water temperature exceeds 180°F.
10. PEX tubing shall not be installed within the first 18 inches of piping connected to the hot water heater.
11. PEX tubing shall not be installed within 6 inches horizontally or within 12 inches vertically from any source of heat, such as gas appliance vents, light fixtures, heating appliances, etc.
12. The AquaPEX tubing and ProPEX fittings up to 3-inches have been tested to comply with ASTM E84 and do not exceed the 25/50 flame spread and smoke developed index when installed under the below conditions. These products may be installed within ducts or plenums as specified in Section 95.602.2 of the Los Angeles Mechanical Code (LAMC), 2023 Edition; only when installed in accordance with the manufacturer's instructions and the following restrictions:

- a. Tubing, pipe supports, fittings, and accessories shall be insulated with ½-inch thick Mason Alley-K, Armaflex Composite, Johns Manville Micro-Lok®, John Manville Micro-Lok HP®, Owens Corning Vapor Wick®, Owens Corning Fiberglass®, GLT Pipe and Tank®, Knauf Earthwool Redi-Klad®, or Nomalock® fiberglass insulation.

- b. Tubing with a maximum nominal diameter of $\frac{3}{4}$ inch may be installed without insulation so long as a minimum spacing of 18 inches is kept between adjacent runs of tubing.

Note: Tubing with insulation deviating from the above restriction (including, but not limited to manufacturer, model, and thickness of insulation) shall not be installed within a duct or plenum because the tubing and fittings have not been tested with alternate variations of insulation in accordance with ASTM E84 or UL 723 by a third party agency recognized by the City of Los Angeles Mechanical Testing Laboratory.

13. PEX tubing shall not be installed in locations where exposed to direct sunlight.
14. Installation shall be in accordance with the manufacturer's recommendations and this research report.
15. These tubes shall not be deformed or kinked.
16. When PEX tubing is installed underground, the tubing shall be sleeved with piping or tubing approved for underground potable water systems or other material that is impermeable to solvents or petroleum products.
17. PEX tubing 1 inch and smaller shall be supported at 32 inch intervals for horizontal runs. PEX tubing 1-1/4 inch and larger shall be supported at 4 feet intervals for horizontal runs. All size tubing shall be supported at the base and at each floor for vertical runs. Furthermore, vertical runs shall be provided with mid-story guides.
18. Bored holes and sleeves shall provide adequate clearance between the tubing and structure to allow for free longitudinal movement.
19. Tubing passing through drilled or notched metal studs or joist or hollow shell masonry walls shall be protected from abrasion due to thermal expansion and contraction by elastomeric or plastic sleeves.
20. Tubing penetrating framing members within one inch of the exposed framing shall be protected by steel nail plates not less than 18 gauge in thickness. The steel plate shall extend along the framing a minimum of $1\frac{1}{2}$ inches beyond the outside diameter of the pipe or tubing.
21. Penetration of fire rated walls shall be properly fire-stopped as per building code. The fire stopping shall be chemically compatible with PEX material.
22. Only approved fittings and manifolds shall be used.

Uponor, Inc.
RE: PEX Tubing and Fittings

23. Transition from PEX tubing to other types of piping shall be by means of approved transition fittings.
24. No headers, joints or field splices shall be permitted in or under the slab.
25. For alterations and additions in existing buildings where no associated building-electrical permit has been obtained, a miscellaneous electrical permit shall be obtained to verify the electrical grounding.
26. PEX tubing shall be identified with markings and shall include the following:
 - a. Manufacturer's name or trade mark
 - b. Nominal size
 - c. Material designation code
 - d. Standard dimension ratio, "SDR 9"
 - e. Temperature and pressure ratings
 - f. "ASTM F876" or "ASTM F877"
 - g. Chlorine classification code
 - h. Third party certification mark
 - i. Standard designation(s) of the fitting system(s) for which the tubing is recommended for use by the tubing manufacturer
 - j. Marking that identifies the presence of an inner, middle, or outer layer.

Uponor, Inc.
RE: PEX Tubing and Fittings

DISCUSSION

The Mechanical Testing Laboratory reviewed recent test reports and current certificates of approval. These products have been tested in accordance with ASTM Standards E84, F876, F877, F1960; ANSI/NSF Standards 14 and 61; and comply with the lead free California State Health and Safety Code Section 116875 for fittings or fixtures used to convey or dispense water for human consumption and are currently listed by NSF International and IAPMO R&T. The products are equivalent to that prescribed by the Los Angeles Municipal Code in quality, strength, effectiveness, durability, and safety.

For this General Approval to be valid on any individual construction project in the City of Los Angeles, an engineer or inspector of the Department of Building and Safety must make a determination that all conditions of the General Approval required to provide equivalency have been met in the case of each construction project under consideration.

This approval is granted under Sections 94.301.0, 94.313.0, 94.603.0, 94.604.0, 94.608.0 and 94.610.0 of the Los Angeles Plumbing Code, 2023 Edition; Section 95.602.2 of the Los Angeles Mechanical Code, 2023 Edition.

F6042000	2" Pre-insulated Uponor AquaPEX with 1/2" insulation, 100-ft. coil

Straight Tubing: Pre-insulated	
Item #	Description
F6921250	1 1/4" Pre-insulated Uponor AquaPEX with 1/2" insulation, 20-ft. straight length, 100 ft.
F6921500	1 1/2" Pre-insulated Uponor AquaPEX with 1/2" insulation, 20-ft. straight length, 100 ft.
F6922000	2" Pre-insulated Uponor AquaPEX with 1/2" insulation, 20-ft. straight length, 100 ft.

Metal Manifolds	
Item #	Description
LF2801050	ProPEX 1" Copper Branch Manifold with 1/2" ProPEX LF brass outlets, 4 outlets
LF2807550	1" Copper Branch Manifold, 4 LF Brass outlets, 3/4" LF Brass ProPEX Inlet
LF2811050	ProPEX 1" Copper Branch Manifold with 1/2" ProPEX LF brass outlets, 6 outlets
LF2817550	1" Copper Branch Manifold, 6 LF Brass outlets, 3/4" LF Brass ProPEX Inlet
LF2821050	ProPEX 1" Copper Branch Manifold with 1/2" ProPEX LF brass outlets, 8 outlets
LF2827550	1" Copper Branch Manifold, 8 LF Brass outlets, 3/4" LF Brass ProPEX Inlet
LF2831050	ProPEX 1" Copper Branch Manifold with 1/2" ProPEX LF brass outlets, 10 outlets
LF2837550	1" Copper Branch Manifold, 10 LF Brass outlets, 3/4" LF Brass ProPEX Inlet
LF2841050	ProPEX 1" Copper Branch Manifold with 1/2" ProPEX LF brass outlets, 12 outlets
LF2500400	1" Copper Manifold with LF Brass 1/2" ProPEX Ball Valve, 4 outlets
LF2500600	1" Copper Manifold with LF Brass 1/2" ProPEX Ball Valve, 6 outlets
LF2500800	1" Copper Manifold with LF Brass 1/2" ProPEX Ball Valve, 8 outlets
LF2501000	1" Copper Manifold with LF Brass 1/2" ProPEX Ball Valve, 10 outlets
LF2501200	1" Copper Manifold with LF Brass 1/2" ProPEX Ball Valve, 12 outlets
LF2512450	1" x 6' Copper Manifold with 24 LF Brass outlets, 1/2" ProPEX, 3" on center

Brass Fittings	
Item #	Description
LF4513850	ProPEX LF Brass Sweat Adapter, 3/8" PEX x 1/2" Copper
LF4543850	ProPEX LF Brass Coupling, 3/8" PEX x 1/2" PEX
LF4523850	ProPEX LF Brass Male Threaded Adapter, 3/8" PEX x 1/2" NPT
LF2875050	ProPEX LF Copper Tub Ell, 1/2" PEX LF Brass x 1/2" Copper (3" x 6")
LF2885050	ProPEX LF Copper Tub Ell, 1/2" PEX LF Brass x 1/2" Copper (3" x 4")
LF2935050	ProPEX LF Copper Straight Stub, 1/2" PEX LF Brass x 1/2" Copper (8")
LF2945050	ProPEX LF Copper Straight Stub, 1/2" PEX LF Brass x 1/2" Copper (15")
LF2982525	ProPEX LF Brass Flange Adapter Kit, 2 1/2" PEX
